

## Our beautifully renovated Lion Unit

The bathroom has been completely renovated -- new bathroom tile, shower, vanity, lighting -- stunning! New kitchen cabinets and stainless steel appliances, granite countertops and paint. New living room furniture and kitchen table.

## Environmentally Conscious

We strive to preserve the natural beauty of our Island.

We use rain barrels to collect water and use for watering our many plants throughout the property. We also have herb gardens that are available for our guests to use for cooking.

We do not use chemical laden dryer sheets. We have replaced many of our chemical cleaning supplies with all natural doterra essential oil cleaners and fresheners. We use natural essential oils when possible for pest and weed control.
